EXAMINER'S STATEMENT Of REASONS For ALLOWANCE

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render an obviousness of a sigma delta interpolator for use in a fractional N synthesizer having a multi-modulus divider comprising an accumulator and a delay circuit coupled to the accumulator to receive n least significant bits and operative for implementing a delay function defined by equation: $1-(1-Z^{-1})^N$ wherein N is greater than or equal to 2 as cited in independent claims 1, 7, and 18.

The closest found prior art is the admitted prior art. The admitted prior art also discloses a sigma delta interpolator for use in a fractional N synthesizer having a multi-modulus divider comprising an accumulator and a delay circuit coupled to the accumulator to receive n least significant bits and operative for implementing a delay function defined by equation: $1-(1-Z^{-1})^N$. However, the admitted prior art fails to disclose the order of the delay function circuit N is greater than or equal to 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled, "Comments on Statement of Reasons for Allowance."
